

## WHO WE ARE?

The African Baseball Network, Inc. was created in 2003 as an international non-profit 501(c)(3) tax exempt organization to promote the game of baseball through education and socio cultural exchange within minority communities in Africa, America and the rest of the globe. Our outreach and foundation programs include providing youths in minority communities with Computer Literacy, Baseball Development Skills, Aids Education and Awareness while encouraging interactive recreational activities. At the rapid pace that technology is advancing, it is imperative to prepare underprivileged kids in our communities across Africa and America by familiarizing them with 21st century technology. Our organization attempts to provide them with the skills necessary to be integrated and productive in the global economy. Our programs are designed to provide them with a wide access to resources that might be missing in their lives.

We are very proud and happy to serve and support underprivileged kids in our communities in Africa, America and the rest of the globe.
